## *SALES & INSTALLATION*

### *PIX OF ACTUAL (OAKLAND COUNTY) INSTALLS (AND POSSIBLE MITCH VIDEO LINKS)*

*-To find out what type and size generator works best for your home, we begin with a phone consultation. We'll ask you a few basic questions about your home and appliances, and in most cases provide a quote right over the phone.*

*-Next one of our trained technicians will do an in-home evaluation, answer all your questions, and schedule delivery and installation.*

*-Finally get ready to enjoy Peace of Mind that comes with never losing power!*

## *GENERATOR MAINTENANCE*

Oakland County Generators recommends annual maintenance to ensure your unit performs flawlessly year round. Our technicians will do a full inspection, make sure the battery system is in good working order, check all instrumentation for accuracy, confirm voltage and frequency are at their proper settings. Also perform an oil change, spark plug replacement, check hoses, and wire insulation, and run a complete diagnostic and performance test.
